DETAILED ACTION

Allowable Subject Matter

Claims 6-8, 18 and 22 are allowed.

The following is an examiner's statement of reasons for allowance: the specific limitations as disclosed in claims 6-8, 18 and 22 are deemed to be patentable because it distinctly defines the invention. The specifics of calculating the single average value for the plurality of Cr locations and the single average value for the plurality of Cb locations are considered to be novel. None of the references, taken alone or in combination, teach the present invention. Hisada discloses to the general concepts of image transmission. Balkanski discloses the digital video compression system involving discrete cosine transforms. Harvey discloses that luminance and chrominance components can be separated in a video telephonic system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
